

Directory of Services for Individuals with Vision Loss or Combined Hearing and Vision Loss and for the Community.

EYEKNOWAZ is intended to be a directory of services for individuals with vision loss or combined hearing and vision loss and for the community. We have done our best to indicate which needs each organization provides services to assist with. This directory is not comprehensive, nor do listings imply endorsement or evaluation of programs in any way.

Governor's Council on Blindness & Visual Impairment | 602-542-3780 | GCBVI@azdes.gov

Vocational Rehabilitation (VR) - Chandler-Gilbert, Chandler-Tempe

Description

The Vision for the Vocational Rehabilitation program is persons with disabilities becoming economically independent and decreasing or eliminating their need for ongoing government supports through integrated, meaningful, and sustained work. This is achieved through a rehabilitation process which engages applicants and clients fully in actively exploring their vocational interests, abilities, capabilities and service/process options and in making choices. The VR Program helps people with disabilities become or remain economically independent through work.

Advocacy & Consumer Protection

This category lists agencies and organizations that may provide one or more of the following services; information and referral, individual or group skills training and or individual and system advocacy as it relates to the interests, desires, needs and rights of an individual or individuals within a local, state and or national community in order to promote positive system changes.

Adult Late Deafened Association (ALDA)

Description

The mission of the Association of Late-Deafened Adults (ALDA) is to support the empowerment of deafened people. Late-Deafened Adults are people who have lost the ability to understand speech with or without hearing aids after acquiring spoken language. ALDA is committed to providing a support network and a sense of belonging by sharing our unique experiences, challenges and coping strategies, helping one another find practical solutions and emotional support, and working together with other organizations and service providers for our common good.

Council of Citizens with Low Vision International

Description

CCLVI is an advocacy membership organization the purposes of which are: • To establish the right of persons with low vision to make full use of their vision through all available aids, services and technology. • To provide a mechanism through which low vision people can express their individual needs, interests and preferences. • To educate the general public, professionals, and low vision people themselves as to the potentialities, capabilities, and needs of low vision people. • To establish outreach programs to insure that all individuals with low vision have access to necessary services. • To promote research to prevent blindness, improve maximum utilization of sight, and improve environmental conditions and access for low vision people. • To support the development of and expansion of pre-service and in-service training programs to improve the quality and quantity of medical and rehabilitative low vision services.

Youth Action Council of Arizona (YAC-AZ)

Description

The Youth Action Council of Arizona (YAC-AZ) mission is to encourage the empowerment of youth with and without disabilities in an all inclusive environment through education and community involvement in all aspects of change and advocacy. All youth ages of 14 to 30 are welcome to be part of YAC-AZ. All they need to have is a willingness to learn about the issues that affect youth with disabilities and a desire to become a leader within their community.

AMC Ahwatukee 24

Description

At AMC, our show times are made to easily assist hearing and vision impairments. Assistive Listening devices are available for all movies. However, not all titles are made available by studios with captions and/or audio descriptions. Look for the show times with audio description or closed captioning icons on our website. Whether amplifying the audio, receiving narration about what's happening on screen, or using closed captioning to follow the dialogue, our services make every film just right for you. Just ask any AMC crew member for assistance.

AMC Arizona Center 24

Description

At AMC, our show times are made to easily assist hearing and vision impairments. Assistive Listening devices are available for all movies. However, not all titles are made available by studios with captions and/or audio descriptions. Look for the show times with audio description or closed captioning icons on our website. Whether amplifying the audio, receiving narration about what's happening on screen, or using closed captioning to follow the dialogue, our services make every film just right for you. Just ask any AMC crew member for assistance.

Founded in 1990, Descriptive Video Service DVS (R) pioneered access to television for viewers who are blind or visually impaired. The services provides descriptive narration of key visual elements, which is then inserted within the natural pauses in dialogue to help low-vision viewers to better understand the story. Descriptive Video Service (DVS The Caption Center) Offers captioning and video descriptions

Braille Audio Reading Download (BARD), National Library Service for the Blind and Physically Handicapped (NLS)

Description

BARD is a free library service of recorded and braille books and magazines for residents of the United States and to American citizens abroad who are unable to read or use standard printed material because of visual or physical disabilities. BARD is provided by the National Library Service for the Blind and Physically Handicapped (NLS), Library of Congress, in cooperation with a network of regional and subregional libraries.

[The Arizona Talking Book Library is the regional library for Arizona.]

Vocational Rehabilitation (VR) - Chandler-Gilbert, Chandler-Tempe

Description

The Vision for the Vocational Rehabilitation program is persons with disabilities becoming economically independent and decreasing or eliminating their need for ongoing government supports through integrated, meaningful, and sustained work. This is achieved through a rehabilitation process which engages applicants and clients fully in actively exploring their vocational interests, abilities, capabilities and service/process options and in making choices. The VR Program helps people with disabilities become or remain economically independent through work.

Contact Information

Address - 125 E. Elliot Road Chandler AZ 85225

Phone - 480-820-5629

Fax - 602-250-8572

Vocational Rehabilitation (VR) - Chandler-Gilbert, Chandler-Tempe

Description

The Vision for the Vocational Rehabilitation program is persons with disabilities becoming economically independent and decreasing or eliminating their need for ongoing government supports through integrated, meaningful, and sustained work. This is achieved through a rehabilitation process which engages applicants and clients fully in actively exploring their vocational interests, abilities, capabilities and service/process options and in making choices. The VR Program helps people with disabilities become or remain economically independent through work.

Contact Information

Address - 125 E. Elliot Road Chandler AZ 85225

Vocational Rehabilitation (VR) - Chandler-Gilbert, Chandler-Tempe

Description

The Vision for the Vocational Rehabilitation program is persons with disabilities becoming economically independent and decreasing or eliminating their need for ongoing government supports through integrated, meaningful, and sustained work. This is achieved through a rehabilitation process which engages applicants and clients fully in actively exploring their vocational interests, abilities, capabilities and service/process options and in making choices. The VR Program helps people with disabilities become or remain economically independent through work.

Vocational Rehabilitation (VR) - Flagstaff

Description

The Vision for the Vocational Rehabilitation program is persons with disabilities becoming economically independent and decreasing or eliminating their need for ongoing government supports through integrated, meaningful, and sustained work. This is achieved through a rehabilitation process which engages applicants and clients fully in actively exploring their vocational interests, abilities, capabilities and service/process options and in making choices. The VR Program helps people with disabilities become or remain economically independent through work.

AccessaMed

Description

AccessaMed, Inc. is an assistive technology company who created the Digital Audio Label, the new generation in accessible prescription drug labeling. The founders of AccessaMed identified the need for a safer and more independent way to take medication first hand. As a team with a visually impaired founder, AccessaMed prides itself on creating technology by the blind, for the blind. Founded in 2011, the mission of this company has been to provide pharmacists the accessible prescription drug labeling solution that best serves their blind, print impaired and senior customers while satisfying legal requirements.

Judith Tunnel Accessible Trail

Description

This trailhead is located at the South Mountain Environmental Education Center (SMEEEC) at 10409 S. Central Ave. (Central Avenue south of Dobbins Road). There are a number of disabled accessible parking spaces at the Center. This is one of the City's newest preserve-based, barrier-free trails, consisting of two, ½-mile loops comprised of stabilized decomposed granite, providing for a smoother passage. Drinking fountains, benches, covered ramadas are available for periodic rest stops. In order to maintain this smooth trail, bicycle and equestrian traffic are not permitted. Distance: 1 mile, broken into two, ½ mile loops Difficulty: The Interpretive Loop includes interpretive signs along the trail describing the plant and animal life that thrive in the area. This loop generally contains the least degree of difficulty with a moderate 7.5 % maximum grade. The Challenge Loop consists of a slightly more difficult passage with a maximum grade of 8.5 %.

Ski for Light, Inc. is an all-volunteer non-profit organization founded in 1975 that teaches the basics of classic cross-country skiing for adults who are visually or mobility impaired, while giving

participants who have already learned the basics of the sport the chance to improve their skills or to just have fun on the snow. All of this takes place during an annual week long event at a U.S. location that changes from year to year, and is made possible by the volunteer sighted and able-bodied experienced cross-country skiers who attend as guides and instructors.

Vocational Rehabilitation (VR) - Chandler-Gilbert, Chandler-Tempe

Description

The Vision for the Vocational Rehabilitation program is persons with disabilities becoming economically independent and decreasing or eliminating their need for ongoing government supports through integrated, meaningful, and sustained work. This is achieved through a rehabilitation process which engages applicants and clients fully in actively exploring their vocational interests, abilities, capabilities and service/process options and in making choices. The VR Program helps people with disabilities become or remain economically independent through work.

Information related to employment, family support, visual conditions, and braille literacy are relayed through additional websites linked to the AFB home page.

Annual Disability Statistics Compendium

Description

The Rehabilitation Research and Training Center on Disability Statistics and Demographics (StatsRRTC) facilitates evidence-

based decision making in many different service and policy arenas to benefit persons with disabilities, leading to improved social outcomes. Large quantities of survey data and administrative records related to people with disabilities are collected each year. Yet these data lack continuity and are underutilized, leading to missed opportunities to improve the programs and policies that advance the lives of people with disabilities. Policymakers, program administrators, service providers, researchers, advocates for people with disabilities, and people with disabilities and their families need accessible, valid data/statistics to support their decisions related to policy improvements, program administration, service delivery, protection of civil rights, and major life activities. The Center's goal is to support decision making through a variety of integrated research and outreach activities by (a) improving knowledge about and access to existing data, (b) generating the knowledge needed to improve future disability data collection, and (c) strengthening connections between the data from and regarding respondents, researchers, and decision makers. In this way, the Center hopes to support the improvement of service systems that advance the quality of life of people with disabilities.

National Research and Training Center on Blindness and Low Vision

Description

The National Research and Training Center on Blindness and Low Vision (NRTC) is located in the historic Industrial Education Building on the campus of Mississippi State University. The NRTC is the only U.S. Department of Health and Human Services-funded center focused on employment outcomes of persons with blindness or low vision. In October 2011, the NRTC marked its 30-year anniversary as a center for applied research focusing on this population.

AppleVis

Description

A community-powered website for blind and low-vision users of Apple's range of Mac computers, the iPhone, iPad, iPod Touch, Apple TV and Apple Watch. AppleVis strives to empower the community by offering multiple pathways to access and share relevant and useful information. As a community, we seek to encourage and support people in exploring the many ways in which Apple products and related applications can offer opportunities to the vision-impaired for personal enrichment, independence and empowerment. AppleVis also offers resources and mechanisms for raising awareness of the accessibility of Apple products and related applications, and for promoting further advancement in accessibility.

RoboBraille

Description

RoboBraille is an e-mail and web-based service capable of automatically transforming documents into a variety of alternate formats for the visually and reading impaired. RoboBraille is available 24/7 as a self-service solution and is available free of charge to individual, non-commercial user not affiliated with an institutional setting obligated to provide support (academic institution, organisation, association or similar). Users need not register in order to use the service. The objective is to support and promote self-sufficiency of people with special needs socially, throughout the educational system and on the labour market. As an additional benefit, RoboBraille helps to protect the privacy of those who need material in alternate formats.

Wireless Inclusive Technologies

Description

The Georgia Institute of Technology, in partnership with Georgia State University, the University of Texas, Arlington, the Shepherd Center and other stakeholders, has established a Rehabilitation Engineering Research Center (RERC) for Wireless Inclusive Technologies (WIT RERC). The mission of the RERC for Wireless Inclusive Technologies "To integrate emerging wirelessly connected devices, sensors and services with established wireless technologies for a transformative future where individuals with disabilities achieve independence, improved quality of life, and enhanced community participation. Through an agenda of research, development, training and outreach activities, successful innovations will connect, engage, and accelerate access to a dynamic inclusive wireless ecosystem.

NFB Newslines

Description

Anyone who cannot read conventional newsprint could qualify for this free service. The toll-free centralized call-in center provides service on demand to any subscriber. Many seniors have lost enough vision that reading the daily newspaper is no longer possible. They will enjoy being able once again to participate actively in community affairs. Blind children are now able to research their own civics assignments and do their homework independently. NFB-NEWSLINE® is the only service that makes so much information available to these eligible people twenty-four hours a day, seven days a week. This service is produced by the National Federation of the Blind, and funded through a relationship between the DES Rehabilitation Services Administration and the Arizona Talking Book Library.

Contact Information

Address - 1030 N. 32nd Street Phoenix AZ 85008
